Informed Consent-Minor

Informed Consent-Minor	
Patient (Minor) Name:	
To the Parent/legal guardian: Please read this entire document prior to signing it. It is important that you understand the information contained in this document. Please ask questions before you sign if there is anything that is unclear.	nation
You are a decision maker for your child's health. Part of our role is to provide you with information to assist you in making informations. This process is often referred to as "informed consent" and involves your understanding and agreement regarding the recommend, the benefits and risks associated with the care, alternatives, and the potential effect on your child's health if you chook to seek care for him or her.	care we
We may conduct some diagnostic or examination procedures if indicated. Any examinations or tests conducted will be carefully performed but may be uncomfortable.	
Chiropractic care centrally involves what is know as a chiropractic adjustment. There may be additional supportive procedures or recommendations as well. When providing an adjustment, we use our hands or an instrument to reposition anatomical structure as vertebrae. Potential benefits of an adjustment included restoring normal joint motion, reducing swelling and inflammation in reducing pain in the joint, and improving neurological functioning and overall well-being.	res, such
It is important that you understand, as with all health care approaches, results are not guaranteed, and there is no promise to consider the property increase in symptoms, there are some risks to care, including, but not limited to: muscle spasms, aggravating temporary increase in symptoms, lack of improvements of symptoms, burns and/or scarring from electrical stimulation and from cold therapies, fractures, disc injuries, strokes, dislocations, strains and sprains. With respect to strokes, there is a rare but serior condition known as "arterial dissection" that typically is caused by a tear in the inner layer of the artery that may cause the development of a thrombus (clot) with the potential to lead to a stroke. The best available scientific evidence supports the understanding that chiropractic adjustment does not cause a dissection in a normal, healthy artery. Disease processes, genetic disorders, medications, and vessel abnormalities may cause an artery to be more susceptible to dissection. Strokes caused by an dissections have been associated with over 72 everyday activities such as sneezing, driving, and playing tennis.	g and/or n hot or ous
Arterial dissections occur in 3-4 out of every 100,000 people whether they are receiving health care or not. Patients who experients condition often, but not always, present to their medical doctor or chiropractor with neck pain and headache. Unfortunated percentage of the patients will experience a stroke.	
The reported association between chiropractic visits and stroke is exceedingly rare and is estimated to be related in one in one reto one in two million cervical adjustments.	nillion
It is also important that you understand there are treatment options available for your child's condition other than chiropractic procedures. Likely, you have tried many of these approaches already. Theses options may include, but are not limited to: self-administered care, over-the-counter pain relievers, physical measures and rest, medical care with prescription drugs, physical the bracing, injections, and surgery. Lastly, you have the right to a second opinion and to secure other opinions about your child's circumstances and health care as you see fit.	erapy,
I have read, or have had read to me, the above consent. I appreciate that it is not possible to consider every possible complication care. I have also had an opportunity to ask question about its content, and by signing below, I agree with the current or future recommendation for my child to receive chiropractic care as is deemed appropriate for his or her circumstance. I intend this concover the entire course of care from all providers in this office for my child's present condition and for any future condition(s) for seek chiropractic care for my child from this office.	sent to
